

GENERAL TERMS AND CONDITIONS OF SALE ISVE S.p.A.

1. (GTCS and Applicable Law)

1.1 – These General Terms and Conditions of Sale (the “GTCS”) shall apply for an indefinite period and shall govern each agreement – as better defined below (the “Contract(s)”) – entered into from time to time between the Purchaser and the Seller for the purchase of products, as defined under Article 3 below (the “Product(s)”).

1.2 – These GTCS shall replace the Seller’s previous general terms and conditions of sale as of 01/10/2026. The full text of the GTCS is also available online on the website www.isve.com. The Seller reserves the right to amend these GTCS, it being understood that any amendment shall become effective as of the date of its publication on the aforementioned website.

1.3 – All Contracts entered into from time to time shall be governed by these GTCS and by the applicable provisions of Italian domestic law, with the express exclusion of the application of the United Nations Convention on Contracts for the International Sale of Goods of 11 April 1980 (Vienna Convention) and/or any other international conventions, treaties, uniform laws and/or conflict-of-law rules applicable to international sales.

2. (Orders)

2.1 – The Contract shall be deemed concluded only upon the Purchaser’s written acceptance (in analogue or digital form) of the Order Confirmation or, for foreign sales, the pro-forma Invoice (the “Order”) received from the Seller. Until such time, any offers and quotations made by the Seller or its agents, representatives and auxiliaries shall not be binding upon the Seller.

2.2 – Any general terms and conditions of the Purchaser shall never apply, even in part, unless expressly accepted in writing by the Seller. For this purpose, any conclusive conduct on the part of the Seller shall be irrelevant. Therefore, any terms and conditions referred to, including in writing, by the Purchaser in any documentation and/or commercial communication relating to and/or connected with an Offer submitted by the Seller, or at any other stage of the contractual negotiations, shall not be binding upon the Seller. Accordingly, the Seller’s performance, even partial, of the Order or any other performance by the Seller towards the Purchaser shall not be construed as tacit or implied acceptance of any general contractual terms and conditions which have not been expressly accepted in writing by the Seller. It is further understood that any document or agreement signed by the Seller and the Purchaser for any purpose after the conclusion of the Contract shall neither amend nor be deemed to constitute an exception to these GTCS and the Contract, unless expressly stated otherwise.

2.3 – The subject matter of the Contracts shall be exclusively that indicated in the Order Confirmation. Any equipment and/or activity which may be ancillary to the sale of the Products, such as electrical lines and equipment, building works, plumbing works, lifting equipment, transportation, scaffolding, accommodation and meals for technicians, shall not constitute the subject matter of the Contracts, unless expressly agreed between the Parties.

2.4 – The Contract shall be deemed concluded when the Seller receives the Order, within the term specified therein, duly signed by the Purchaser for acceptance, or when, prior thereto, the goods have been delivered to the Purchaser or the Contract has been performed through conclusive conduct by the Seller. In any event, any verbal agreement with the Purchaser concerning the sale of the Products shall not be binding upon the Seller unless confirmed by the Seller in writing or through conclusive conduct.

2.5 – Each individual Order issued by the Seller shall list the technical specifications, prices, delivery times and all other specific purchase terms and conditions.

2.6 – The GTCS shall apply jointly with the terms and conditions of the Order confirmed by the Seller and, therefore, with the Contract thereby concluded between the Parties. In the event of any conflict, the terms and conditions of the Order confirmed by the Seller shall prevail over these GTCS.

2.7 – These GTCS shall be deemed known to the Purchaser by virtue of receipt of the Seller's Order, receipt by the Seller of the countersigned Order and/or performance of the Contract.

2.8 – In the event of cancellation of an Order accepted by the Purchaser prior to its performance by the Seller, the Seller may request reimbursement from the Purchaser of the costs and expenses incurred for the performance of the Contract or part thereof, as well as compensation for any further damages suffered.

2.9 – Any amendment or cancellation of Orders accepted by the Purchaser prior to performance of the Contract may only take place upon prior written agreement with the Seller.

2.10 – Where the Products are manufactured on the basis of the Purchaser's instructions and the Purchaser withdraws or amends its Order for reasons not attributable to the Seller, the Seller shall be entitled to charge the Purchaser an amount equal to the costs incurred for the design of the Products and for the performance of the Order.

3. (Products)

3.1 – The subject matter of the sale shall consist of the following Products:

products listed in the "ISVE General Catalogue" available on the website www.isve.com;

customised products, as described in the technical documentation agreed with the Purchaser.

Regarding the products listed in the ISVE General Catalogue, it is understood that the technical specifications, dimensions and any other data contained in the catalogues shall always be deemed indicative and shall never be binding upon the Seller. The characteristics of the Products may be modified at any time whenever required by production requirements or when such modifications are imposed by laws or regulations of the Purchaser's country or of the country of the manufacturers of parts and components of the Products. The Products shall be delivered in accordance with the technical characteristics indicated by the Seller in the relevant technical data sheets and shall be designed and manufactured exclusively for the use specified in the technical data sheets attached to and/or referred to in each Order.

3.2 – The configuration of the Products and their technical and performance characteristics shall be exclusively those defined from time to time in the Contracts governed by these GTCS. To improve the Products, the Seller reserves the right to modify their technical and/or construction characteristics at any time and without prior notice.

3.3 – The technical design and other requirements of the Products shall be carried out in accordance with applicable law.

3.4 – Any specific requirements or performance characteristics of the Products must be expressly requested by the Purchaser in writing and agreed upon in the Contract. Regarding such specific requirements, the Purchaser

shall be responsible for ensuring that the Products are suitable for their intended use and comply with the laws and regulations of the place where they are to be used. In such cases, the Seller reserves the right to obtain the Purchaser's written approval of the technical drawing and/or technical draft and/or sample prior to commencement of production.

4. (Drawings, Seller's Documentation, Intellectual Property)

4.1 – Prices and all data – technical and otherwise – including those relating to the functionality and performance of the Products, contained in any descriptive and commercial documentation (including brochures, leaflets, price lists, catalogues, websites, sales offers or other paper, electronic and/or digital media, etc.) of the Seller, except as otherwise specified in the accepted Order, shall not constitute a commercial or contractual offer but shall be deemed indicative and non-binding upon the Seller. Therefore, the Seller reserves the right, at any time and without prior notice, to make such changes as it deems appropriate, at its sole discretion, to improve the functionality and performance of the Products and to meet technological and production requirements.

4.2 – Any design, document, industrial and intellectual property right, technical information or software relating to the manufacture, assembly or maintenance of the Products, as well as those relating to parts thereof, and any other design, document, industrial and intellectual property right, technical information or software of the Seller provided to the Purchaser before or after conclusion of the Contract, shall remain the exclusive property of the Seller. Such material may not be exploited or otherwise used, directly or indirectly, by the Purchaser for any purpose without the Seller's prior written consent.

4.3 – The Seller provides no warranty that the use and/or marketing of the Products by the Purchaser may or may not constitute an infringement of third-party intellectual property rights (patents, trademarks, designs, know-how, etc.) and shall not be required to compensate and/or indemnify the Purchaser against any disputes and/or claims brought by third parties in this regard.

4.4 – Where the Products are manufactured by the Seller at the Purchaser's specific request and based on the Purchaser's technical documentation, the Seller shall not be liable for any infringement of third-party industrial property rights, which shall instead be the sole responsibility of the Purchaser. The Purchaser undertakes to indemnify, hold harmless and defend the Seller against any claims brought against it in this regard.

5. (Delivery)

5.1 – The Products shall be supplied FCA Poncarale, Brescia (Italy), Incoterms® 2020, unless otherwise agreed between the Parties in the relevant Contract and/or in Orders confirmed by the Seller.

5.2 – The Purchaser warrants that the Products may be freely imported into the country/place of delivery and/or destination and formally undertakes to pay all applicable charges, even if, at the time of importation into the country/place of destination, prohibitions or restrictions apply thereto.

5.3 – Delivery dates shall be established in favour of the Seller and, therefore, the Seller may deliver the Products according to its manufacturing schedules, which shall be deemed to include a reasonable tolerance period. Should the delay in delivery exceed sixty (60) days from the agreed date, excluding cases of force majeure referred to in Article 5.3, the Purchaser may serve a written formal notice of default upon the Seller, granting an additional period of no more than thirty (30) days. Upon expiry of such period without delivery having taken place, the Purchaser shall be entitled to withdraw from the Contract.

5.4 – The Purchaser shall always accept delivery of the Products, including partial deliveries.

5.5 – Should the Purchaser fail to promptly accept delivery of the Products or fail to arrange for their collection for reasons not attributable to the Seller, the Purchaser shall bear all costs and risks that may arise, and any amount due to the Seller for any reason whatsoever shall become immediately payable. Furthermore, the Seller shall not be liable for any loss, damage and/or deterioration of the Products, the costs of which shall be borne by the Purchaser.

5.6 – The delivery period shall be extended for a period equal to the duration of the impediment in the event of circumstances for which neither the Seller nor the Purchaser is responsible, including, by way of example and without limitation, strikes of any nature, fires, floods, terrorist events, lack of motive power, shortage or scarcity of raw materials, breakdowns and accidents affecting the Seller's production facilities, delays in the issuance of authorisations by the Authorities and other circumstances beyond the Parties' control which temporarily make delivery or collection impossible or excessively costly.

5.7 – In the event of delay in accepting delivery, arranging collection or payment by the Purchaser to the Seller, the Seller may charge the Purchaser storage costs for Products already manufactured and ready for transport and delivery, calculated according to the following criteria, as compensation in favour of the Seller for the warehousing and storage costs of the aforementioned Products.

In particular, where the Products are ready for shipment to the Purchaser and delivery does not take place for reasons not attributable to the Seller or due to force majeure, delivery shall be deemed duly completed by means of a simple "goods ready for collection" notice sent to the Purchaser by registered letter, fax, certified email (PEC) or e-mail and, as a consequence thereof, the Seller shall be authorised to issue the final invoice. After the first 10 days, considered as a grace period, the Purchaser shall be required to pay the Seller storage costs at the Seller's warehouse or at any other warehouse designated by the Seller, in the amount of 1% of the amount stated in the invoice (Product value) for each full week of delay, up to a maximum of 5% of the amount stated in the invoice in the event of a longer delay.

Should the Purchaser's refusal to receive the goods persist for more than 30 days from notification that the goods are ready for collection, the Seller shall be entitled to terminate the Contract pursuant to Article 1456 of the Italian Civil Code, without prejudice to the Seller's right to compensation for damages, to be determined also taking into account: warehousing costs; loan costs relating to the manufacture of the Products not received; disposal costs of such Products (especially where manufactured according to the Purchaser's specific requirements); and investments in equipment and machinery for the manufacture of such Products.

5.8 – In addition to the remedies set forth in Article 5.7 above, with regard to customised Products, it is understood that, should the Purchaser refuse to accept delivery of the Products, even partially, the Seller shall be entitled to invoice and receive full payment for the Products manufactured in accordance with the Orders.

5.9 – The Purchaser waives any compensation or claim for damages against the Seller for direct and indirect damage caused by loading, transportation and unloading operations, as well as by delays or partial deliveries, provided that such damage is not attributable to wilful misconduct or gross negligence on the part of the Seller.

6. (Transfer of Risk)

Regardless of the method of transport and return specified in the special conditions of the Contract, the Products shall always travel at the Purchaser's risk and expense, even where delivery is agreed free of charge or under any

other equivalent or similar clause, which shall be relevant solely for the purpose of regulating the allocation of transportation costs. The Products shall not be insured by the Seller. The Seller may arrange insurance for the Products only upon the Purchaser's written request. In any event, all insurance costs shall be borne by the Purchaser.

7. (Ownership)

7.1 – The Purchaser shall acquire ownership of the Products upon delivery, provided that the price of the Products has been paid in full at that time.

7.2 – In the event of sale by instalments, the Purchaser shall acquire ownership of the delivered Products upon payment of the final instalment of the purchase price, but shall bear the risks from the time of delivery.

7.3 – Should the Purchaser fail to pay one or more instalments amounting to one eighth of the price, the Seller shall be entitled to terminate the Contract pursuant to Article 1456 of the Italian Civil Code and recover exclusive possession of the Products.

7.4 – Without prejudice to any other rights over the Products, the Purchaser undertakes, in any event, to take all necessary steps to establish, in the country where the delivered Products are located, a valid retention of title or equivalent form of security in favour of the Seller, enforceable against third parties.

7.5 – The Purchaser may not resell, transfer, pledge or otherwise exercise any proprietary or personal right over the purchased Products without having first paid the Seller the price in full. The Seller shall be immediately informed, by registered letter, of any legal proceedings (enforcement proceedings, bankruptcy, etc.) brought against the Purchaser, as well as of any other act carried out by third parties which may prejudice the Seller's retention of title.

7.6 – Goods subject to retention of title or another equivalent security established pursuant to this provision shall, from the time of delivery until full and exact payment of the entire price, be installed at the premises originally indicated in the Contract. During this period, the goods may not be transferred to other locations.

7.7 – In the event of breach by the Purchaser of the obligations set forth in this Article, the Seller shall be entitled to terminate the Contract with immediate effect and obtain the return of the Products pursuant to Article 1456 of the Italian Civil Code, and shall be entitled to retain, by way of penalty, the amounts already paid, without prejudice to the right to compensation for further damages.

8. (Price and Payment)

8.1 – Unless otherwise indicated in the Order Confirmation, the prices of the Products are exclusive of VAT and refer to goods delivered FCA Poncarale, Incoterms® 2020. It is understood that the prices of the Products are exclusive of taxes, duties, transportation costs, insurance, installation, assembly and service, with packaging charged separately. Payment terms shall be specified from time to time in each confirmed Order.

8.2 – Unless otherwise provided in the Order, the Seller shall be entitled to receive an amount equal to 30% of the purchase price as an advance payment. Upon delivery of the goods, such amount shall be credited against payment of the purchase price. In the event of termination of the Contract, such deposit shall be applied towards compensation for damages, without prejudice to the Seller's right to compensation for further damages.

8.3 – Unless otherwise indicated, the price stated in the Seller's Order shall remain valid for a period of 30 days from the date of issue of the Order.

8.4 – The price of the Products and any other amount payable to the Seller for any reason whatsoever shall be deemed due – net of any deductions – at the Seller’s registered office.

8.5 – In the event of failure by the Purchaser to comply with the payment terms and conditions, or in the event of financial difficulties of the Purchaser arising after conclusion of the Contract, as well as in the event of partial and/or total non-payment or failure by the Purchaser to provide an adequate guarantee, if agreed, the Seller shall be released from any obligation to commence production and/or deliver the Products. Such release shall apply both to the Products covered by the non-compliant Contract and to other Products. In such cases, the Purchaser shall lose the benefit of the term and, consequently, the Seller shall be entitled to immediately demand payment of the entire outstanding amount, without prejudice to its right to withdraw from the Contract and retain, by way of partial advance liquidation of damages and without prejudice to its right to compensation for greater damages, the amounts already paid by the Purchaser.

8.6 – The Purchaser may assert any breach by the Seller or invoke the warranty referred to in Article 9 below only provided that the Purchaser has duly made all payments due. Any breach by the Seller shall not entitle the Purchaser to suspend or delay payments.

8.7 – Any delay, including partial delay, in payments on the agreed dates shall result in exclusion of the warranty referred to in Article 9 below until the defaulted payments have been regularised, as well as the automatic charging, without prior notice, of interest calculated at the rate applicable in the Seller’s country, increased by three percentage points.

8.8 – Payments shall always be made in currencies having legal tender in Italy. The Parties agree that any changes occurring at any time with regard to economic and market conditions, as well as currency fluctuations, interest rates and similar circumstances in the Purchaser’s country, shall never constitute or be construed as force majeure and/or hardship events releasing the Purchaser from its contractual obligations towards the Seller. Consequently, the Purchaser shall bear any consequences and/or losses caused by any of the aforementioned events or circumstances until full and proper performance of any Contract between the Parties.

8.9 – All payments due to the Seller shall be made in immediately available funds, without any deduction or set-off, free of charge and without any deduction for taxes, duties, levies, customs duties, charges, contributions or withholdings of any kind, whether currently or in the future imposed by any governmental, tax or other authority. If the Purchaser is required to make any deduction, the Purchaser shall pay the Seller any additional amount necessary to ensure that the Seller receives the full amount due that it would have received had such deduction not been made.

9. (Warranty)

9.1 – The warranty shall be limited, at the Seller’s sole and final discretion, to the repair or replacement of defective parts of the Products resulting from design or manufacturing defects, excluding:

materials not manufactured by the Seller;

normal wear and tear of all moving parts;

electrical parts, as well as failures caused by overloads.

It is understood that this warranty shall not imply any liability of the Seller for direct or indirect damage caused by improper use of the machinery. Accordingly, the Seller shall not be liable for any loss of profit suffered by the Purchaser because of production stoppage caused by a Product defect, nor for any damage caused by loss of electrical power or cooling-water pressure.

The above warranty shall not cover defects in the Products resulting from:

lack of maintenance;

insufficient and/or incorrect lubrication or greasing;

use of non-original components or spare parts;

failure to comply with the safety rules indicated in the operating manual;

modification of safety devices, electrical control panels and/or electrical, hydraulic or pneumatic circuits;

access to the Products by unauthorised and/or unqualified personnel.

9.2 – Furthermore, the Seller shall not be liable for failure to comply with applicable laws and regulations or for any defects arising, even indirectly, from any technical or other documentation, or from anything else supplied, indicated or requested by the Purchaser or by third parties acting on behalf of the Purchaser.

9.3 – The Seller shall also not be liable for defects of conformity of the Products or for defects caused by failure to comply with the provisions contained in the operating manual, where applicable, or in any event by improper use or mishandling of the Products.

The Seller shall not be liable for defects of conformity or defects arising from improper use of the Products by the Purchaser or from modifications or repairs carried out by the Purchaser without the Seller's prior written consent, or in any event for defects attributable to causes arising after transfer of risk.

Neither warranty shall apply where the Purchaser has freely chosen to purchase second-hand products from the Seller and/or third parties as Products.

9.4 – This warranty shall remain valid for 12 (twelve) months, up to a maximum of 1,700 operating hours, starting from the date of installation, commissioning and acceptance testing and, in any event, its duration may not exceed 15 months from the date of delivery and shall not be subject to any extension. The Purchaser shall forfeit the right to the aforementioned warranty if the use of the Products does not comply with the criteria set forth above.

Any repair or replacement carried out by the Seller shall never be construed as acknowledgement of the existence and/or extent of any defect. Repair may only be carried out provided that the Purchaser grants and permits the Seller and the persons designated by it unrestricted access to the place where the Products are located for the purpose of carrying out the repair.

The warranty for replaced or repaired parts shall expire on the same date as the warranty referred to in Article 9.1, as provided in the preceding paragraph.

Under penalty of forfeiture, the Purchaser shall notify the Seller in writing of any lack of conformity or defect in the Products, specifying its nature in detail, within the following terms:

within 8 days of delivery of the Products in the event of apparent defects;

within 8 days of discovery of defects occurring after delivery and, in any event, within 15 (fifteen) months thereof.

The Purchaser shall forfeit the warranty if the Seller requests, at its own expense, the return of the defective part and the Purchaser fails to return such part within fifteen days of replacement.

9.5 – For a claim to be admissible, the Purchaser shall be required to demonstrate in writing the validity of the warranty, the correct installation and maintenance of the Products, and to provide the Seller with adequate documentation proving the defects. It is understood that any claim shall not entitle the Purchaser to suspend or delay payments due to the Seller.

9.6 – After ascertaining the existence of the defect, the Seller shall carry out repairs and/or replacements, with shipping and return costs of the Product part, travel, meals and accommodation being borne by the Purchaser. Any compensation for damages payable to the Purchaser shall in no event exceed the value of the portion of the Product supplied by the Seller affected by the defect.

9.7 – If the defective Products must be returned to the Seller, any Product part presumed to be defective shall be shipped to the Seller, which shall carry out the necessary inspections.

9.8 – The warranty provided for in this Article replaces all warranties or liabilities provided by law and excludes any other liability of the Seller arising in any way from the Products supplied. In particular, the Purchaser may not submit any further claims for damages, including for Product downtime or production stoppage, price reduction or even partial termination of the Contract, damage to reputation or loss of goodwill. Once the warranty period has expired, no claims may be brought against the Seller.

9.9 – All remedies provided for by applicable law in the event of breach of the Seller's obligations are hereby excluded, except for the repair and replacement remedies set forth above. Consequently, the Seller shall not be liable for compensation for any actual damage and/or loss of profit, whether direct, indirect and/or consequential, affecting property or persons. The Seller's liability is also excluded with respect to any express or implied warranty obligations arising under laws or regulations in favour of the Purchaser, including implied warranties of conformity, merchantability and fitness of the goods for a particular purpose.

9.10 – Use by the Purchaser of portions of Products not manufactured and/or supplied by the Seller, and/or of non-original spare parts supplied directly by the Seller, in combination with the Seller's Products shall constitute immediate revocation of the warranty.

10. (Product Preparation and Limited Liability)

10.1 – Any processing that the Purchaser intends to carry out using Products in a manner that differs from the technical specifications indicated by the Seller or from standards normally accepted by the market for the type of Products concerned must be agreed in advance with the Seller. Failing such agreement, the Seller shall not be liable for the performance of the Products; in the aforementioned cases, the warranty for defects and/or non-conformity of the Products shall also be excluded.

10.2 – The Purchaser shall obtain, at its own expense, all certifications and/or licences required, with regard to the Products, by the laws and regulations of the Purchaser's country and/or place of destination, in order to ensure that the Products and all their parts and components fully comply with the applicable technical and safety standards and requirements in the aforementioned locations. The Purchaser shall indemnify and hold the Seller

harmless from the costs of obtaining such certifications and licences, as well as from any liability and any other legal consequence arising from the absence of all or part of such certificates and licences.

10.3 – The Seller shall not be liable for any missing or defective production or for any damage arising from the Purchaser's use of Products that are unsuitable, non-compliant or otherwise inadequate in relation to the technical characteristics of the Products. In such cases, the warranty for defects and/or non-conformity of the Products shall also be excluded.

10.4 – The Seller assumes no liability for Products marketed and/or installed in countries where their use is prohibited by law, or for uses for which the Products are not intended, or for installations and uses that do not comply with the technical specifications of the Products agreed between the Parties.

11. (Non-Disclosure Obligations)

11.1 – The commercial terms and conditions of sale, with particular regard to budgets, incentive and discount conditions, as well as any other documentation or information considered confidential by the Seller, are strictly confidential and private. Therefore, the Purchaser undertakes not to disclose or communicate them to third parties, nor to use them for purposes other than the conclusion and performance of the Contract, even after its performance.

11.2 – Each Party undertakes to keep secret and confidential, for the period from conclusion of the Contract until the expiry of the fifth year following the date of its full performance, all information that must be considered confidential, including, by way of example and without limitation, technical and commercial data relating to the Products and their development, quality data, performance tests, prices and commercial conditions, financial information, sales and marketing plans, and customer and supplier lists.

12. (Jurisdiction)

12.1 – Any dispute arising in connection with the Contracts shall be subject to the exclusive jurisdiction of the Court of Brescia, Italy.

13. (Miscellaneous)

13.1 – If the GTCS and/or the Contract are drawn up in more than one language, the English version shall prevail in all cases.

13.2 – The Contract may not be assigned by the Purchaser without the Seller's prior written consent.

13.3 – The fact that either Party fails to exercise a right arising from the Contract shall not be construed as an implied waiver of the rights provided for by such provision, nor shall it prevent the Party entitled thereto from demanding its full and strict compliance at a later date.

13.4 – The invalidity of any provision of the Contract by operation of law or legal principle shall not result in the invalidity of the other provisions herein, which shall remain valid and fully effective.

14. (Privacy)

The Seller informs the Purchaser that the Seller is the Data Controller and that the Purchaser's personal data shall be collected and processed in accordance with the procedures and criteria established by EU Regulation 2016/679, as subsequently amended and supplemented. The provision of the requested data is essential for

execution of these GTCS, and its processing is lawful and necessary for the performance of any contractual relationship between the Parties relating to the supply of the Products, pursuant to Article 7.6 of EU Regulation 2016/679.

It is further specified that the data shall be processed in paper and/or automated and computerised form and may be communicated to parent companies, subsidiaries and affiliated companies, entities, consortia, banks and associations operating in Italy and abroad.

The Purchaser may exercise at any time the rights granted under Articles 15 et seq. of EU Regulation 2016/679.

By signing these GTCS, the Purchaser gives its consent to the processing of its personal data.

Purchaser's stamp and signature:

Express Approval

The Purchaser expressly declares, pursuant to and for the purposes of Article 1341 of the Italian Civil Code, that it accepts the following Articles as set forth above:

1.3 (applicable law); 2.1 (formation of the Contract); 2.2 (non-applicability of the Purchaser's General Terms and Conditions); 2.4 (conclusion of the Contract); 2.11 (withdrawal and amendment of Orders); 3.4 (specific Product requirements); 4 (drawings, Seller's documentation, intellectual property); 5.2 (payment obligations in the event of goods that cannot be imported); 5.3 (indicative deadlines); 5.4 (partial deliveries and exclusion of termination of the Contract); 5.5 (obligation to accept delivery); 5.6 (failure to accept the Products); 5.7 (risk of loss or damage to the Products); 5.8 (charging and limitation of the Seller's liability); 5.9 (waiver of compensation); 6 (transfer of risk); 7.2 (retention of title); 7.3 (termination and recovery of the goods); 7.5 (individual rights relating to goods not fully paid for); 7.7 (termination and penalties); 8.1 (price, taxes, duties and transportation costs); 8.5 (exemptions); 8.6 (limitations on the Purchaser's defences); 8.7 (exclusion of warranty); 8.8 (changes in economic conditions); 9 (insurance); 10 (limitation of liability); 11 (non-disclosure obligation); 12 (exclusive jurisdiction).

Purchaser's stamp and signature:
